

BEATRIZ OLIVEIRA

EXPERIENCE

Administrative Assistant 2019-2020

Memória Gradual, Lda.
Oeiras, Portugal

Manicurist 2016-2018

Freelance
Taubaté, Brazil

Ballet Teacher 2013-2014

Academia de Dança Granja Viana
São Paulo, Brazil

As if the challenges of maternity during a pandemic weren't enough, this mother of two decided it would be a good idea to endure a 14-week intensive programming Bootcamp!

Now, the world of magic I always loved but never found, I was able to find in programming.

Today, I see myself as the woman, not only the mother of Alice and Vicente but the Beatriz who is in love with Ballet, airplanes, and programming.

I believe that my capabilities and hard work will help your company take off. So, let's code together?

PROJECTS

Ducky Carers 2021

A web application was created and implemented in only 24 hours (Hackathon), using Java, PostgreSQL, Heroku, HTML, CSS, Bootstrap, and JavaScript.

Bart Simpson - Skate or Die 2021

A game was created and implemented in only 1 week, after only 4 weeks of learning Java and using a graphic library.
